

Mr. Duckett

Intelligence Review Course

As you will note on your calendar, you have been invited to talk to the Intelligence Review Course on Monday, 5 December, from 1515-1630 in the USIB conference room. The DD/S&T participates in this course each year and discusses the organization and functions, new developments, and to some extent future plans. There are about 35 people in this course and most of them have been in the Agency for more than 10 years and range around the GS-14 or 15 level. Security classification is Top Secret.

Just for your information, on 6 Dec OSI (Don Chamberlain) and OCS (Chuck Briggs) will be asked to talk to the group on their particular office activities.

I have asked for a copy of the program schedule as soon as it is prepared and, also, a list of the group members. As the time for the talk approaches, I will check with you and see what support you may wish in the way of vu-graphs, etc.
